

NO: 46-01
DATE: November 21, 2001
TO: All PrimeSource® Wholesalers
FROM: PrimeSource Sales & Marketing
SUBJECT: Transition – “ZB’s” To Replace “ZR’s”

Copeland will start the transition from “ZR’s” to “ZB’s “ in December, 2001. All the “ZB’s” shown below are approved for R-134a, R-404A, and R-22 applications, except the ZB88KC. PrimeSource wholesalers can benefit from this consolidation using fewer models to cover more applications.

As inventory of the “ZR’s” shown below is used up at the Fishers Distribution Center, we will be changing orders received for these “ZR’s” to the “ZB” models. Specific performance and physical information on all these models is available on line using OPI or in Pathfinder 8.0.

R-22 Air Conditioning

Current Model	Replacement Model
ZR84KC-TF5/TFD	ZB50KCE-TF5/TFD-931
ZR94KC-TF5/TFD	ZB58KCE-TF5/TFD-931
ZR108KC-TF5/TFD	ZB66KCE-TF5/TFD-931
ZR125KC-TF5/TFD	ZB76KCE-TF5/TFD-931
ZR144KC-TF5-TFD	ZB88KC-TF5/TFD-931
